Theme: Exchange•Consensus•Action

## The 5<sup>th</sup> Chinese Renewable Energy Conference & Exhibition

Duration: October 24-26, 2013

Venue: Wuxi Taihu International Expo Center

[www.crecexpo.com](http://www.crecexpo.com)

### Hosts

Theme: Exchange•Consensus•Action

## INVITATION

Dear Sir or Madam:

It is our pleasure to invite you to attend the Chinese Renewable Energy Conference & Exhibition 2013 which will be held on October 24-26, 2013 at Wuxi Taihu International Expo Center, Wuxi, Jiangsu Province.

This event is sponsored by the China Council for the Promotion of International Trade (CCPIT) and the Jiangsu Provincial People's Government, co-organized by the American Council On Renewable Energy (ACORE) and the China Electricity Council (CEC). For four years in a row, the conference and exhibition has become one of the international annual flagship events in the Chinese renewable energy industry. Since 2009, the event has had a high-level, large-scale, and profound impact on the direction of the renewable energy conversation in China.

In 2012, China PV system installation market is up to 4.5 GW. With new incentive policies announced in April, 2013, it is estimated that this figure will become 8GW in this year. Therefore, it's a big chance not only for domestic enterprises but also for foreign companies. This year's conference will focus on the distributed power generation technology and service, financial innovation and BIPV/T. The exhibition will showcase new products, new technologies and new equipment for solar photovoltaic, photo-thermal, smart grid and all kinds of renewable energy applications. It will provide a platform for exchange and cooperation and will provide opportunities for you to increase visibility.

According to the statistics of last event, more than 600 attendees and 10000 buyers were attracted from home and abroad, including government officials, representatives from chambers of commerce and trade associations, as well as industry experts and scholars.

We would be deeply honored to have you join us at this very special event. Please let us know by Friday, September 6 whether you will be able to participate.

Organizing Committee of CREC

# The Schedule of Exhibition

| Date   | Content  |
|--|--|
| Oct. 22 08:30-17:00<br>Oct. 23 08:30-17:00                     | Exhibitors Registration and Move-in  |

|  | PV Pavilion<br>Photo-thermal Pavilion<br>Wind Energy and Applications Pavilion |
|  | Renewable Energy Applications Pavilion   |
|  | East–West Renewable Energy Project Matchmaking                                 |
|  | Overseas Purchasing Groups Trade Matching                                      |
| Oct. 26 15:00-18:00  | Move-out   |

# Conference Agenda

| Date                   | Time        | Content  |
|------------------------|-------------|--|
| Oct. 23<br>(Wednesday) | Full Day    | Registration   |
|                        | 17:00-18:00 | Press Conference   |
| Oct. 24<br>(Thursday)  | 09:30-10:00 | Opening Ceremony   |
|                        | 10:00-10:30 | Exhibition Visit   |
|                        | 10:30-12:00 | Main Forum(Part I): 2013 Global Renewable Energy Summit  |
|                        | 12:00-13:30 | Luncheon Party (Invited Guests)  |
|                        | 13:30-18:00 | Main Forum(Part II): 2013 Global Renewable Energy Summit   |
|                        | 18:30-20:00 | Welcome Banquet, Renewable Energy Annual Award Ceremony CREC 2013                                    |
| Oct. 25<br>(Friday)    | 09:00-17:00 | 2013 International Photovoltaic Industry Technology Exchange Conference                              |
|                        | 09:20-12:00 | Seminar on Building Energy Efficiency  |
|                        | 13:30-17:00 | Seminar on Innovative Financing Mode and Application for Renewable Energy Industry                   |
|                        | 09:00-17:00 | Distributed Generation Installation Engineering Training   |
|                        | 09:00-12:00 | Seminar on Jiangsu Offshore Wind Power & Wind Power Industry Chain                                   |
|                        | 13:30-17:00 | Seminar on the Development of Solar Thermal Industry   |
|                        | 10:00-11:00 | Overseas Market Delegation Trade Matchmaking   |
| Oct. 26<br>(Saturday)  | 14:00-15:00 | East-West Renewable Energy Project Matchmaking Meeting   |
|                        | 09:00-11:30 | Visit Wuxi PV Industrial Park, Low-carbon Concept Pavilion, Wuxi Renewable Energy Demonstration Base |

# Special Events

## East-West Renewable Energy Projects Matchmaking

This meeting will attract 20 western cities in China to release over 30 renewable energy projects in Wuxi. The same meeting during the period of CREC 2012 attracted 12 western cities to attend, including Gansu, Inner Mongolia, Shaanxi, Shanxi, etc. Of which, 4 western cities and 18 eastern companies have signed 22 agreements on photovoltaic power generation, LED, wind power, biomass, with contracts amount of 6.2 billion yuan.

## Trade Matchmaking of Overseas Delegations

The meeting will invite over 20 overseas delegations from California of the USA, Confederation of Indian Industry, Mexico, Israel, Essex County of the UK, Sorocaba City of Brazil, JETRO, HKTDC, and nearly 100 business representatives will have a face-to face talk with the exhibitors.

## Training for Distributed Generation Installation

The major task will include: basic principles and design plan for PV system, the introduction of the related parts of PV system, design for off-grid system and complementary system, the key technologies and common trouble removal for PV system installation, installation procedure, testing and operating for PV system, acceptance and test standard of PV system, distributed photovoltaic technology economic analysis, feasibility report and bidding documents compiling of PV power station.

## Seminar on Innovative Financing Modes and Applications in Renewable Energy Industry

This seminar will focus on how to get financing for the traditional renewable energy projects, whether the subsidy policies in current China will induce innovative financing or not, the difficulties of asset-backed securitization for PV power plant in China, how to use innovative financing modes to promote the renewable energy projects. The organizers will invite over 20 banks, securities and insurance companies to attend.

## Seminar on Renewable Energy and Building Integration

Sponsored by Housing Industrialization Promotion Center, Ministry of Housing and Urban-Rural Development of China, this seminar will show various kinds of energy-saving technologies including PV, photo-thermal, green building materials and air source heat pump to the invited 30 building developers and firms. Through three houses set up on the site of exhibition, we will make efforts to create an exchange platform between developers, renewable energy companies and building design firms.

## Release of Joint Declaration on Renewable Energy Cities and Parks

Sponsored by Wuxi Municipal Government, this event will attract over 50 China's Renewable Energy Demonstration Cities and Parks to release Joint Declaration. The purpose is to re-shift the relationship between government and renewable energy companies, accelerate the industry integration, guide the industry sound development, and jointly call on the country to introduce policies to promote civil applications.

# Speakers

**Terry Tamminen**  
Former director of the California Environmental Protection Bureau, strategic adviser of R20

**Shi Dinghuan**  
Counselor of the State Council;  
Director-General of China Renewable Energy Industry Society

**He Dexing**  
Director of The Wind Power Special Committee of China Renewable Energy Association

**Yang Huaijin**  
CEO of Hareon Solar

**Zhang Lei**  
Chairman of the board of Emission Energy

**Gu Xiaoping**  
Deputy director of Jiangsu Housing and Urban Construction Department

**Tom Weirich**  
Vice President of ACORE

**Lu Hean**  
President of SEMI China;  
Vice president of SEMI global

**Jiang Zhongwei**  
President of Greenville International Solar City Westech Inc, USA

**Lian Rui**  
Snior analyst of Solarbuzz

**Shi Heping**  
Vice Governor of People's Government of Jiangsu Province

**Li Junfeng**  
Director of Renewabl Energy Professional Committee of China Association of Resource Comprehensive Utilization; ' Director of National Climate Center

**Wang Sicheng**  
Researcher of Energy Research Institute National Development And Reform Commission

**Qu Xiaohua**  
CEO of Canadian Solar

**Fang Peng**  
CEO of JA Solar

**Jiang Liping**  
Associate dean for State Grid Energy Research Institute

**GU Weidong**  
Dean for Academy of Macroeconomic Research, NDRC;  
Chief Expert, Doctor of 973

**Zhang Guangchun**  
CEO of Canadian Solar

**Xu Ruilin**  
Secretary-General of Jiangsu PV Industry Association

**Cui Peiju**  
Chairman of Samil Power

**Wu Xinrong**  
Deputy Director of National Development and Reform Commission;  
Director of National Energy Administration

**Wei Shaofeng**  
Vice Chairman of China Electricity Council

**Zhou Daling**  
Deputy Director of Bureau of Fair Trade for Imports and Exports

**He Zinian**  
Chief Expert of The National New Energy Engineering Research Center; Vice Director of China Energy association;  
Consultant of Beijing Solar Energy Research Institute

**Wang Bohua**  
Secretary-general of China Photovoltaic Industry Alliance

**Huang Ming**  
Chairman of the board of Himlin Solar Co., Ltd.

**Liu Jingjiang**  
Director of the center for Housing Industrialization

**James Amano**  
Senior director of SIA (Semiconductor Industry Association)

**Huang Qiang**  
Senior Vice President of Trina Solar Limited

**Lu Rong**  
Chairman of the board of Zhenfa New Energy

## CREC Highlights

Nearly half of China's renewable energy industry clusters located in Wuxi and its neighbors

The most influential exhibition in renewable energy fields in China's prefecture-level cities

Gathering many overseas trade missions and professional buyers

Dedicated to promote business and projects matchmaking in renewable energy fields at home and abroad

Building a new platform for business exchanges and market expansion in renewable energy fields

## Exhibition & Forum Participation Application

### 1. Exhibition Application

**Online Registration:** Please enter the official website [www.crecexpo.com](http://www.crecexpo.com) to complete the online registration application. The organizing committee will contact with you soon and send you the floor plan and the contract. After you sign the contract and finish the payment, we will formally confirm your application.

**Fax Registration:** Please download the Exhibitor Application from the official website [www.crecexpo.com](http://www.crecexpo.com), or get the paper form from the organizing committee. Please fill out the Exhibitor Application, stamp it and send it to us by fax.

### 2. Forum Participation Application

**Online Registration:** Please enter the official website [www.crecexpo.com](http://www.crecexpo.com) to complete the online registration application. The organizing committee will contact with you soon and send you the letter of confirmation. After receiving your payment of registration, we will send you the E-ticket, which will be then in exchange for the card present, materials and the invoice.

**Fax Registration:** Please download the Participation Application from the official website [www.crecexpo.com](http://www.crecexpo.com) or get the paper form from the organizing committee. Fill out the Participation Application, stamp it and send to us by fax. After receiving your payment of registration, we will send you the E-ticket, which will be then in exchange for the card present, materials and the invoice.

**On-site registration:** Please learn more information in advance, and then register the forum participation on-site.

## Standard Rate

### The Exhibition Fees

Standard Booth: USD 3000/9 m<sup>2</sup>

Raw Space: USD 300/ m<sup>2</sup> (A minimum 36 m<sup>2</sup> for leasing, site management fee will be on your account )

### The Forums Fees

Single forum: RMB980/person, including: single forum fee (excluding training) + conference materials + meals + visit

Distributed generation installation training: RMB1880/person, including: training fee + training materials + visit + meals

Full forums (including training): RMB2880/person, including: full forums + conference materials + company profile + gift + meals + visit.

## Exhibition Scope

### Solar Power Pavilion

**PV Cells and Modules:** Crystalline silicon, thin film, Concentrating PV (CPV);

**Manufacturing equipment:** silicon rod/ingots, silicon/wafer, Cells, Modules;

**PV Materials:** Ingots, Wafers, Feedstock-Polysilicon, UMG, etc., Consumables, Gases and liquid chemicals, Solar glass, Encapsulation;

**PV Components:** Batteries, Chargers, Control technology, Converters, Inverters, Measurement technology, Mounting system, Tracking system, Testing system;

**Other:** R & D/testing agencies, industry, media, education and training, financial investment and promotion, software development and applications (industrial chain related);

### Solar Thermal Pavilion

**Solar thermal products:** solar water heaters, solar central water heater, solar collector system, solar heating systems, solar cooling, solar thermal building integrated systems;

**Light and heat parts:** collector, storage tank, absorbing device and coating, erection device degassing equipment, light-heat conversion solution, controllers and control valves;

**Solar thermal power generation system:** trough of light and heat generation, tower thermal power, the butterfly thermal power generation, solar chimney power generation;

**Solar thermal power generation equipment:** tracking system, condenser technology and equipment, high-temperature heat storage systems, high-temperature thermoelectric conversion technology, collector tube and a heat transfer medium.

### Wind Power Pavilion

**Wind Turbine Generator Systems:** Off-grid WTGS, In-grid WTGS, Hybrid power systems;

**Components:** gearboxes, generators, brake systems, bearings, wheels, towers, transformers, inverters, yaw, pitch control, heat exchangers, transmission system, monitoring system, lubrication system, composite materials, safety equipment, electrical systems, fasteners, testing equipment, hydraulic devices, coatings and coating equipment;

**Technical Consulting and Services:** Wind resource assessment, Site selection, WTGS design, Project construction, Project investment and finance, Equipment maintenance.

### Renewable Energy Integrated application Pavilion

Green building materials, green lighting, building-integrated photovoltaic systems, solar thermal building integrated systems, photovoltaic consumer products, wind energy consumer products, professional applications, floor heating, new energy vehicles, new energy application engineering Case.
